

IF YOU THOUGHT YOU COULD
NEVER AFFORD COMPAQ QUALITY,
THINK AGAIN.

THE COMPAQ ProLinea 3/25ZS IS HERE.

Imagine a PC that delivers unmatched quality and just the right level of performance— all at an extraordinary price!

It's from Compaq! The COMPAQ ProLinea 3/25zs features a 386SX/25 processor capable of running your most popular software. Its high-resolution display shows you sharp detail. And the footprint is our smallest ever. Superbly engineered, the COMPAQ ProLinea affords you the opportunity to enjoy COMPAQ quality, even with a low budget.

COMPAQ

COMPAQ. It's the name everyone wants to see on their personal computer. No other

company produces higher quality products. Greater performance. Better software compatibility. And now, we offer still another attribute: a low price. Yes, there are many inexpensive PCs, but now, one name stands above them all: COMPAQ ProLinea. With the introduction of the COMPAQ ProLinea Line of desktop PCs, there is a COMPAQ PC for every budget. Entry-level prices, with the quality you expect from Compaq. And rightly so. The COMPAQ ProLinea 3/25zs is a dependable, well-designed PC conceived and engineered by Compaq.

To perform your work more quickly, an Intel 25-MHz 386SX processor is at the heart of the COMPAQ ProLinea 3/25zs.

Today's software is more feature-rich than ever, and requires a good amount of processing power. With this processor, you can handle a spreadsheet, database or document of practically any size.

Built-in 1024 x 768 graphics produce a razor-sharp picture.

Our high-resolution graphics system puts more information on your screen with superior clarity. For instance, you can easily read more columns and rows of a spreadsheet, or an entire page of text. And the controller is compatible with our complete range of optional monitors.

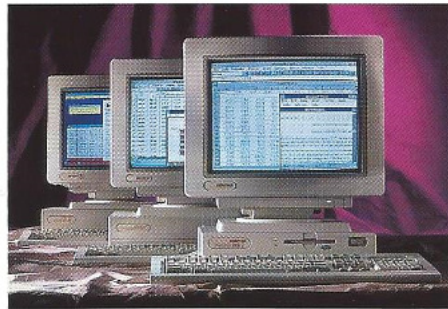

It's the most compact desktop from Compaq, yet.

Only 12.6 inches (31.8cm) wide, 14.9 inches (37.9cm) deep and 3.5 inches (8.9cm) high, the COMPAQ ProLinea 3/25zs design has a definite size advantage. For top performance in a small, elegant package, the COMPAQ ProLinea 3/25zs fits your plans.

Preinstalled software gives you immediate productivity.

Compaq is preinstalling MS-DOS 5.0 as published by Compaq on the hard drive of your COMPAQ ProLinea PC.

The COMPAQ ProLinea PC also includes models with Microsoft Windows 3.1 and PFS:WindowWorks preinstalled. This gets you working right away.

A one-year, on-site Limited Warranty,* plus phone support via voice, fax or modem.

Your COMPAQ ProLinea 3/25zs is under an on-site warranty for an entire year. In addition, you can phone our Compaq Customer Support toll-free at 1-800-345-1518 for help in getting started or operating your PC. Want still more information? Join the Compaq Forum on CompuServe, or call our Customer Support 1-800 number and select option 5 to receive information through PAQFax.

The COMPAQ ProLinea Line of desktop PCs includes three high quality, affordable models: the small footprint COMPAQ ProLinea 3/25zs, the more expandable COMPAQ ProLinea 3/25s, and the powerful COMPAQ ProLinea 4/33 with faster graphics and processing speed. Each model is available with a choice of hard drives, as well as any of our optional monitors.
