- Comes with MS-DOS® MS-DOS® Manager®and GW-BASIC™ software
- Three models available: single 3.5″ floppy drive; dual 3.5″ floppy drives; single 3.5″ floppy drive with 20MB Winchester

ZENITH data systems

Be up and running immediately.

The eazy pc is designed for people who want a powerful, affordable personal computer that is extremely easy to use. Whether you are running a business, doing schoolwork, or just playing games, the eazy pc has the power to run top software packages. All eazy pc models come with 512K RAM, and can be expanded to 640K.

PC-compatibility means hundreds of uses.

Spreadsheets. Word processing. Databases. Educational software. The eazy pc can run virtually any program written for PC-compatible systems.

GW-BASIC™ and MS-DOS® are included with the eazy pc. But there is no need to memorize DOS commands thanks to another program that is included, MS-DOS Manager.® Also developed by Microsoft, it lists important DOS commands on the screen and tells users what to do next. At the touch of a key, the user is provided with information about the operation being performed.

A tutorial is also included that familiarizes users with the MS-DOS operating system, and how to best work with the MS-DOS Manager program by offering clear, step-by-step lessons.

14″ B&W Monitor Included!

The monitor comes attached to the computer—there are no wires or cables to connect. This monitor generates sharp, high resolution text and graphics.

High capacity 3.5″ disk drives.

All eazy pc models feature high capacity 3.5″ floppy drives. These drives are the latest in PC technology and store 720K of data, twice the amount held on 5.25″ floppy disks.

Easy-to-use keyboard.

Ten function keys, separate calculator key pad and an "L" shaped return key increase the ease and accuracy of entering input. The keyboard is detached and lightweight, and all keys are clearly labeled.

Options to expand your horizons.

The eazy pc's standard 512K RAM can be expanded to 640K in one of two ways. You can add a 128K RAM module. Or you can add a modem/serial/memory module which includes Zenith's Computerized Phone System (CPS) communications software. Besides increasing RAM, this option will let your eazy pc communicate with another computer via telephone.

A mouse and real time clock are also available options.

Easy-to-find Service.

The eazy pc comes with a limited one year warranty. If you should ever require service, you can bring your PC to any authorized service dealer. Many of the stores which sell the eazy pc are authorized service locations.

Specifications

Processor:
8088-compatible 16 bit microprocessor. 7.16 MHz

Memory:
512K RAM. Expandable to 640K with options.

Keyboard:
Detached low profile to conform with DIN standards; 3 ft. coiled expandable to 6 ft; 84 keys (10 function keys; 57 alphanumeric; Caps lock and Numeric lock are lit; audible click on each keypress

Bell:
Audible alarm in receipt of the ASCII BEL command

Video:
14″ 25KHz page white phosphor monochrome CRT monitor attached to base unit; Separate brightness and contrast adjustment controls; CGA compatible

Display Resolution Character:
640 x 400

Monochrome Graphics:
640 x 200

Alphanumeric Display:
80 columns x 25 rows; full descenders

Character Font:
8 x 16

Character Attributes:
Reverse, underlining, blinking and high-intensity

Parallel I/O Port Interface:
Female Centronics compatible parallel printer port with a DB-25 pin connector accessible through the rear of the unit.

Mouse Port:
Built-in serial interface with DB-9 connector for optional Microsoft-compatible mouse.

Disk Drives
Floppy: Single or dual 3.5″ floppy disk drives; 135 tracks per inch, double sided/double density. 720K bytes (formatted) per drive, 9 sectors per track
Winchester: Optional rigid disk drive. With single 3.5″ floppy disk. (Approx. 26.6 Mbytes unformatted—21.4 Mbytes formatted 85 milliseconds)

Physical:
An integrated (all-in-one) monitor and desk-top system unit; separate detached keyboard. All metal base unit for strength.

Size:
14″W x 13″H x 11″D (without keyboard)
35.56cm x 33.02cm x 27.94cm

Weight:
Aprox. pounds (keyboard and drives)
EZ-1:   28 pounds (12.71 kg)
EZ-2:   29 pounds (13.17 kg)
EZ-20: 30 pounds (13.62 kg)

Operating Temperature:
5-35°C 41-95°F

Humidity:
20-80%

Power Requirements:
100-130 Volts at 60 Hz

Power Supply:
110 VAC

Regulatory Approvals:
FCC Class B, UL approved, CSA

Audio:
2″ 8 ohm speakers

Standard Software:
MS-DOS, MS-DOS Manager, GW-BASIC™

Options:
Modem/serial/128K RAM module with CPS communications software. 128K RAM module. Zenith real time clock. Mouse.
