

A small-business revolution from NEC.

Ready.

"Designed with extreme ease of use in mind,
the NEC Ready system truly lives up to its name."
—PC Magazine

"These plug-and-work PCs are simple to get up
and running in under half an hour."
—PC World

Ready for Business.

NEC's Ready PCs have everything you need to get right down to business: 4MB of RAM, high capacity IDE hard drives, three expansion slots and a built in fax/modem*. All three models come preloaded with business software.

Dazzling graphics.

The Ready products feature local bus video with a BitBlt graphics accelerator for the ultimate graphics performance. A full 1MB of video RAM provides 24-bit True Color capability—you can display photo-realistic images in 16 million colors!

Technical support via modem*.

In addition to toll-free customer support and on-site service, the Ready products include NEC's unique ReadyRemote™ support program. ReadyRemote allows our technicians to diagnose and correct problems using the system's built-in modem. We can have you back up and running in minutes!

OptiBus™ technology for maximum performance.

The Ready products feature NEC's exclusive OptiBus technology for dramatically improved I/O throughput. With OptiBus, the Ready Series provides up to a 30% increase in I/O performance.

EPA Energy Star™ compliant design.

Spurred by economic and environmental concerns, NEC designed the Ready PCs with energy saving power management features. When your PC is sitting idle, it will automatically switch into an energy-conserving mode that will translate directly into lower operating costs for your business!

* Ready 425es™ does not include modem.

NEC

Technical Specifications

CPU:	Ready 425es™ - Intel 486SX™, 25 MHz Ready 433es™ - Intel 486SX™, 33 MHz Ready 466es™ - Intel 486DX2™, 66/33MHz
OptiBus:	NEC-exclusive design for accelerated drive access
Graphics:	Local bus graphics with BitBlt graphics accelerator Supports up to 1024 x 768 resolution 24-bit True Color support for 16.8 million colors
Energy Star:	EPA Energy Star compliant design for energy savings
RAM:	4MB RAM expandable to 64MB using SIMMs
Cache:	8KB internal, 256KB secondary cache SIMM module (optional)
ROM:	128KB NEC Flash ROM
Diskette drives:	1.44MB 3.5" diskette drive
Hard drives:	Ready 425es - 170MB IDE hard drive Ready 433es - 210MB IDE hard drive Ready 466es - 250MB IDE hard drive
Open drive bay:	CD-ROM-ready 5.25" device bay
Expansion slots:	Three 8/16-bit ISA slots
Modem:	9600 bps send/4800 bps receive fax 2400 bps send/receive data (modem not included on Ready 425es)
ReadyRemote:	Immediate technical support via modem (Not available on Ready 425es)
Upgradability:	238-pin zero insertion force Pentium™ OverDrive™ socket
Keyboard:	101-key keyboard with 12 function keys, separate numeric and cursor control pads
Mouse:	PS/2™-style 2-button mouse
Software:	MS-DOS® Microsoft® Windows PFS:WindowWorks™ with Delrina Winfax™ LITE* America On-Line®* CompuServe®* (All software is preloaded on the system's hard drive. Diskettes are not included. Diskettes may be ordered from NEC.)

* Winfax LITE, America On-Line and CompuServe not available on Ready 425es.
